attention: Ms. M. Kennett

2004-01-26

Sir,

I have the honour to inform you that the International Atomic Energy Agency (the Agency) requires consultants' advice on the development of a guidance document on **Principles and Guidelines on Deriving Effective Ageing Management Methodologies** from 16 to 19 February 2004 at the Agency's Headquarters in Vienna.

The purpose of this consultancy is to discuss and analyse current problems and the status of activities in plant life management, to review approaches experienced in different countries, and to prepare an extended outline of a report which will provide guidance from a variety of perspectives as well as solutions devised in countries and utilities under different circumstances.

In this regard, I should be grateful if your Government would make available the services of Mr. Garry G. Young, Entergy Nuclear, 1448 S.R. 333, N-GSB-3E Russellville, AR 72802, United States of America for this consultancy assignment.

We understand that all expenses incurred in connection with his consultant's services will be paid by his authorities.

Please note that compensation is not payable by the Agency for any damage to or loss of the consultant's personal property. However, for the period of his engagement with the Agency including travel between his residence and the duty station, he will be covered under the Agency's insurance policy for, inter alia, permanent total disability or death up to an amount of US\$ 100,000 and for medical expenses up to an amount of US\$ 10,000 in case of illness, injury or death attributable to his relationship with the Agency, subject to the terms of the insurance policy.

Mr. K. Kang of the Division of Nuclear Power is the responsible officer who will contact the consultant directly concerning further arrangements.

Accept, Sir, the assurances of my highest consideration.

Y.A. Sokolov

Deputy Director General

Head of the Department of Nuclear Energy

for DIRECTOR GENERAL
